Yacht Sourcing Indonesia Launches Prana, a 55-Metre Wooden Phinisi

Commissioned by the Ibiza-based boutique hotel brand Atzaro, Prana was expertly hand-crafted in Bira, Sulawesi, over a two-year period

(BALI, INDONESIA — 17 July 2018) — The ancient boat-building traditions of the seafaring Bugis tribe inspired the design of Prana, Yacht Sourcing Indonesia’s masterpiece of ironwood and teak. Constructed using time-honoured techniques, the two-masted phinisi yacht took almost two years to complete, from the laying of the keel, hull and bulkheads to finishing the superstructure and installing the decks.

Launched earlier this month, the wooden sailing yacht boasts nine spacious ensuite cabins over four decks, a yoga terrace, numerous indoor and outdoor living and dining spaces, a dedicated spa, a water sports platform and a cinema under the stars. Prana is currently on her maiden voyage from Bali to Labuan Bajo in Flores and will be available for sailing, diving or retreat charters through Indonesia’s exotic Eastern destinations, including Komodo National Park, the Banda Islands and Raja Ampat.

About Yacht Sourcing

Yacht Sourcing was born in 2016 when a globally-connected team of entrepreneurs and yachting enthusiasts came together with one dream: to put Indonesia's burgeoning marine leisure industry on the global map. Utilising decades of combined industry experience, Yacht Sourcing specialises in a number of services related to the yachting industry in Indonesia, including yacht sales, Phinisi new build and refurbishment, and private charters.
